

# GoWell MED Multi

**MED Multi** is a highly elastic, comfortable sock featuring an Air-Comfort sole with cushioning to protect and support pressure-sensitive areas including pressure points, chafing or blisters. Designed for patients needing a gentle sock following strain or sensitivities, diabetes, rheumatism or vascular/eczema issues.

- Perfect for large/wide feet and ankles
- Able to be worn over medical compression garments
- Suitable for wearers that require bandages, supports and orthoses
- Ideal for patients with high instep, foot/limb deformities, swelling

## Available in Sizes:

II (EU 35-38), III (EU 39-42), IV (EU 43-45) and V (EU 46-48)

## Colours:

Black, Dark Blue (indent) and Grey (indent)
