The task of putting on compression garments **with the aid of an Arion application aid versus without an application aid** makes it:

- ...physically less demanding and saves time
- ...safer for compression garments, helps preventing the garment from stretching or deforming
- ...safer for compression garments, prevents possible damage to the fabric by fingers or nails
- ...safer for the skin, helps reduce the rubbing feel of the fabric on the skin
- It makes wearing compression stockings a more positive experience
- It improves therapy compliance among users
