

Ouch!

Need ice for that?

Use **Polar Ice**®

Cold Therapy Support *LONG LASTING • EASY TO USE*

Polar Ice® will help you reduce swelling, control pain and promote healing following surgery, injury or during rehabilitation.

Polar Ice® can be stored indefinitely in the freezer for immediate availability. For shorter duration cold therapy, the unit may also be refrigerated. For transporting to athletic events, a cooler with ice maintains the frozen unit.

Soft Fleece Material

- ✓ Eliminates migration of ice wrap during use
- ✓ Provides comfortable compression
- ✓ Insulates skin to prevent frost bite
- ✓ Wicks moisture away

Encapsulated Ice Pack

- ✓ Conforms well to the body
- ✓ Transports easily in cooler with ice
- ✓ Provides quick refreeze time
