

With Jan Douglass, hosted by Toomac Solutions

September 12-13th 2021, St Columba Centre, 40 Vermont St, Ponsonby, Auckland

Jan Douglass is an accredited MTC Instructor with Vodder Schools International, an experienced lymphedema therapist and researcher. With experience using lymph taping techniques to treat her own breast lymphedema, Jan is knowledgeable and understanding of the importance of correct taping techniques to treat lymphedema.

This course will focus on recent techniques on taping for seroma, breast oedema and the use of lymph taping as an alternative to compression. Attendees will learn correct and skillful applications of CureTape and how it can be used for lymphatic indications.

There will be an online pre-course which therapists will complete before coming to the practical.

September 12th 6.30pm - 9.30pm & 13th 8.30am - 4.30pm.

Limited places are available so please register before July 31st, 2021 . 50% refundable deposit required to secure place.

Contact Debs Weston to express interest, for more information or to register:      Head Office: 0508 443 534      DDI: 09 393 8851      enquiries@toomac.co.nz
